At the northern tip of Sri Lanka, the Jaffna peninsula is steeped in history – both ancient and modern. Largely inaccessible for nearly three decades, Jaffna is now free to welcome visitors, and has retained its spirit and vibrancy, despite many years of isolation and turmoil. Jaffna has undergone much hardship due to terrorism and war, and the effect of this destructive and traumatic period is still evident – although this ancient city has risen up valiantly; as it has done all throughout history. The busy town and its outskirts are a mix of old colonial charm and Hindu architecture, liberally dotted with Dutch and British style residences. The region is scattered with ancient Hindu temples with colorful statues; colonial period churches that date back to the 17C; and interestingly ruins of ancient Buddhist temples speak of long ago conflicts. The isolated islands around Jaffna peninsula are certainly worth hopping the ferry for too.
